TAFT'S SPECIALWatchman Frustrates Attempt to  
Dynamite Bridge.

Twenty-one Sticks of Dynamite Placed  
in Boxlike Section of Bridge Pier on  
Southern Pacific Railroad Twenty-  
five Miles North of Santa Barbara,  
Cal.—Watchman Fires Several Shots  
at Man Running Away.

Santa Barbara, Cal., Oct. 17.—What is pronounced by Sheriff Nat Stewart of Santa Barbara county and W. F. Wines of San Francisco, special agent for the Southern Pacific railroad, to have been a deliberate attempt to dynamite an 800-foot bridge, twenty-five miles north of here, over which President Taft's special train passed, was frustrated by the vigilance of a Mexican bridge watchman.

Sheriff Stewart and Mr. Wines returned from the scene and reported the evidence of the plot was complete. Secret service men have been placed on the case and a close watch is being kept on all mountain passes.

About midnight when the Mexican watchman was crossing the bridge he noticed a man in the gully beneath. He called to the man, who immediately started to run. The Mexican fired several shots, but all went wild.

Investigating, he found a package of dynamite, and at once notified the sheriff, who notified the railroad officers, and Wines was ordered to get off the president's train at Santa Barbara and make an investigation.

Inside the boxlike section of the pier twenty-one sticks of dynamite were found. The explosive was entirely hidden except that a fuse ten feet long hung out.

In a similar position at the next pier eighteen sticks of dynamite were found, with fuse attached. Both of these piers were about the middle of the bridge.

Further inspection disclosed two sticks of dynamite lying near the bridge, evidently at the spot where the man had been arranging the dynamite and attaching the fuse.

The officers said the dynamite would test 40 per cent, enough, they declare, to blow the bridge to atoms.

From a position directly above the dynamite on top of the bridge the man could have commanded a distant view of any train approaching and, if experienced with dynamite, he could have so timed his fuses as to destroy any train he wished.

ARRIVES AT LOS ANGELES

President Given Hearty Welcome in Southern California.

Los Angeles, Cal., Oct. 17.—President Taft spent the day in progressive Southern California and received a hearty welcome in Los Angeles and Pasadena. It was entirely a nonpartisan reception, Senator Works and Governor Hiram Johnson of the progressive wing of the Republican party accompanying Mr. Taft.

The president's principal address at the Auditorium was on the subject of

ARE BOTH PAST MIDDLE AGE.

Roberts and Bain are both past middle age and white haired.

The Merchants and Manufacturers' association, a local organization which is among those offering rewards for the detection of the person or persons supposed to have blown up the Times, was brought into the situation when Attorney Darrow began asking talesmen if they belonged to it or other organizations. Roberts said he belonged to it several years.

Four men were ejected from the courtroom. They left so quietly that spectators generally were convinced they were departing of their own account.

The men became agitated while listening to the address of Attorney Scott, who declared that it would be better to lynch James McNamara than to try him before an unfair jury.

Noticing their excitement bailiffs suggested to them that they leave and they did.

AGED MAN SUFFOCATED IN FIRE.

Tabor, S. D., Oct. 17.—Joseph Hajek, aged seventy-nine years, and for the last seventeen years a resident of Tabor, living alone, was suffocated in a fire that burned his home. A careful search resulted in the finding of a considerable sum in currency and silver.

The fire is supposed to have been started by burning paper falling to the floor from the open stove door.

Chaffeur, Wife and Three Children Murdered in Their Beds.

Ellsworth, Kan., Oct. 17.—Slain as they slept Sunday night the bodies of Will Showman, a chaffeur, his wife and three small children were discovered in the Showman home by a neighbor who chanced to call and who entered the house when no one responded to his knock.

The bodies of the five victims were found in one room, the father, mother and baby in one bed and the other two children in the second bed.

Showman's wages as chaffeur and mechanic at the garage were small and the family was in moderate circumstances.

NELSON FINALLY  
IS DISQUALIFIEDAdmits Bias and Is Excused  
From McNamara Jury.

WITHDRAWS HIS OPPOSITION

Prosecutor Fredericks Quick to Admit Challenge of Defense When Witness Answers Certain Question—Two Other Talesmen Examined by Defense and Appear to Have Given Satisfactory Answers.

Los Angeles, Cal., Oct. 17.—When seemingly caught in its first snag the McNamara murder trial in an instant twisted itself out of a situation which had worried opposing counsel since last Wednesday and for the remainder of the day at least went ahead speedily.

"Could you set aside your opinions sufficiently to enable you to give a fair and impartial verdict?" was the question put to Venieman Z. T. Nelson by Attorney Clarence S. Darrow, chief of counsel for James B. McNamara, who is on trial for the murder of Charles J. Haggerty, a machinist, killed in the Los Angeles Times explosion a year ago. Nelson had been asked many hundreds of questions to obtain his views and he had answered all of them without clearing up the situation.

"I don't just know," he replied, and in an instant District Attorney John D. Fredericks, for the state, withdrew opposition to a challenge previously made by the defense on the charge of bias.

Talesman Disqualified Himself.

"There was not anything else to do after that question and answer," said Fredericks later. "The talesman disqualified himself. There was no use putting it up to the court."

In the course of Nelson's examination he had said he believed the Times building was blown up by dynamite and that he had an opinion concerning the guilt or innocence of McNamara. As the defense contends both that the Times was blown up by gas and that McNamara has an alibi these opinions were extremely distasteful to it. The state resisted the challenge on the ground that under the California criminal code Nelson could hold such views without being disqualified.

When court closed Nelson was on his way home and two other talesmen had been examined by the defense. One of them, John W. Roberts, a real estate dealer, was found satisfactory and Robert F. Bain, a carpenter, also was examined without raising any contest. Nevertheless, it was the general opinion that the Nelson incident would be duplicated before a jury was obtained.

## CRITICISES HILL'S VIEWS

New York Merchant Replies to Rail-  
way Magnate.

New York, Oct. 17.—"Mr. Hill of the Great Northern railway admits that we have a panic breeding banking system, but he asserts that the congress of the United States has not the intelligence to work out the reform that the business men of the country are demanding. This, it seems to me, is an astounding statement. I believe the great majority of the people of this country are ready to leave this vitally important, nonpartisan work of reform with congress, confident that it will be performed for the good of all the people."

Isidor Straus, the New York merchant, treasurer of the New York state branch of the National Citizens' league, thus answered James J. Hill's Springfield, Ill., speech.

PROGRESSIVES FAVOR  
WISCONSIN SENATORChicago Conference Endorses La  
Follette for President.

Chicago, Oct. 17.—Senator La Follette was endorsed as the progressive's candidate for president without dissent. The conference of progressives was a La Follette demonstration from start to finish. Now that the first gun has been fired since the movement has crystallized around a candidate politicians are weighing its significance.

G. L. Record, chairman, hails from Woodrow Wilson's state and is a leading progressive senator. To M. B. Clapp, a Western progressive, was assigned the task of presenting La Follette's name to the conference. Cautious progressives, typified in James R. Garfield, had no show. Roosevelt's name was hardly mentioned and if Garfield came with a message from Oyster Bay La Follette enthusiasts smothered it.

So unanimous was the feeling for La Follette that it was decided at a conference in the afternoon to finish the business in one day. Cook county progressives met at dinner and endorsed La Follette as a preliminary move to similar action by the conference.

Valentine, Neb., Oct. 17.—Four men, accused of lynching Charles P. Sellers June 18 on a ranch near here, were sentenced to life imprisonment by Judge Westover in district court. Eunice Murphy, the girl accused of being an accessory before the fact, was ordered released.

The four sentenced were Harry Heath, Kenneth Murphy, Alma Weed, and George Weed. The four were arraigned on charges of murder in the first degree, but the court allowed them to ignore this charge upon their petition to plead to the second degree crime.

OUR GREATEST  
NAVAL REVIEWWill Be Held In New York  
Waters on Nov. 1.

PRESIDENT TAFT INVITED.

Asked to Change Plans Which Call For  
Finishing His Trip at Washington.  
All Available Ships on Atlantic Coast  
to Participate.

President Taft has been asked to review the most imposing naval demonstration ever held in American waters. It will take place at New York early in November. Secretary of the Navy Meyer has written a letter to Mr. Taft asking him to terminate his present trip at New York city on Nov. 1 instead of at Washington, as is contemplated. Whether Mr. Taft will be able to change his itinerary and attend the review or not, Secretary Meyer will be on hand to inspect the assembled vessels.

The mobilization of all the available vessels on the Atlantic coast at New York has been decided on in place of a fall cruise. Recently there have been many protests from officers of the Atlantic fleet that they have been worked too hard by protracted foreign cruises. This sentiment led to the abandonment of tentative plans for a cruise to the West Indies and the Panama canal, which had been scheduled for Oct. 15.

Opposition to a Cruise.

Mr. Meyer thinks that the efficiency of the navy would be promoted quite as much by an unexpected mobilization of a large fleet as by cruises. For this reason and in view of the opposition among officers and men of the navy to a cruise he decided upon the mobilization.

While the list of ships to participate in the demonstration has not been selected, it will be the aim of Rear Admiral Richard Wainwright to have as many vessels as possible present. There will be about twenty-five battleships, sixteen belonging to the Atlantic fleet and nine or ten battleships of the reserve fleet. Armored cruisers, gunboats, destroyers and submarines will also take part. Both in size and in naval strength the aggregation of war vessels will be far superior to that at Oyster Bay on Labor day, 1906, when the last naval review was held. At that time a total of about forty-five fighting vessels were arrayed in command of Rear Admiral Robley D. Evans, for review by President Roosevelt. There were then only eighteen battleships in the fleet formation.

Next month the new Dreadnoughts Florida and Utah, recently placed in commission, which have a displacement of 28,000 tons, will lead in size. The fleet will be in command of Rear Admiral Hugo Osterhaus. The spectacle will last only about three days. There will be short divisional cruises, but the fleet will remain in home waters until early in January, when it will proceed to Guantanamo for a period of extensive battle exercises with the torpedo fleet, which will last until the middle or end of February, 1912.

On Pacific Coast Too.

A similar mobilization will take place on the Pacific coast. The fleet will be assembled near Los Angeles. This gathering of war vessels, however, will be much smaller than on the Atlantic coast because comparatively few of the naval vessels are stationed on the Pacific.

The officers on duty in the navy department have already begun arrangements for the forthcoming mobilization. While it was intended to keep the matter secret as long as possible so that it would be in the nature of a surprise test, Secretary Meyer's plans leaked out. All the orders necessary for the carrying out of the plans of the department have not been sent out, although the movement is well on its way. The officers of the department originally intended to spring the mobilization without much notice in order that the administrative machinery of the department and the navy yards would be tested to ascertain their state of preparedness for emergency. This became impossible when Mr. Meyer's plan was made public. As it is the navy will have only about four weeks to prepare for the test.

No decision has been reached as to the number of war vessels now in reserve which will be placed in commission to take part in the demonstration. This will probably depend upon the number of seamen available from the training stations.

LOUIS D. BRANDEIS.

Mentioned as Probable Suc-  
cessor to Justice Harlan.

## MAY APPOINT PROGRESSIVE

Louis Brandeis May Succeed Late  
Justice Harlan.

Washington, Oct. 17.—Political circles agreed that President Taft will select a progressive successor to the late Associate Justice Harlan of the supreme court.

One report is that Louis Brandeis of Boston might be chosen. Another report, and one more generally credited, was that Solicitor General Frederick W. Lehmann would be appointed. He is a lifelong friend of Senator Cummins of Iowa.

Numerous other names were suggested, comprising the same list that is usually put forward for the supreme bench, but interest centered chiefly in the discussion of Brandeis and Lehmann.

BLACK RIVER FALLS  
IS AGAIN IN PERILHeavy Rains Cause River to Rise  
About Three Feet.

Black River Falls, Wis., Oct. 17.—The entire city was thrown into excitement by the heavy downpour of rain which continued all forenoon and brought the river up about three feet. The water again began cutting away Main street.

Efforts of all the available men here are centered on the building of a protecting wall for the old postoffice building, now occupied by the Jackson County bank. A plank wall is being built and the back is being barricaded by stone.

Everything was thought to be safe, but Main street has been cut back ten feet and it is feared the entire north side of the street will collapse. Merchants who had returned to some of the buildings on Main street are again moving their goods to higher ground.

Martin Torkelson, one of the civil engineers of the state, is in the city and says the newly cut channel of the river can be turned to its old bed, but he says it will cost a large sum.

Matters have assumed such shape that Major Williams has sent home forty of the state troops and thinks he has a sufficient number left to handle the situation.

## DESTROY THREE GUNBOATS

Two Other Vessels Escape From  
Rebels Near Hankow.

San Francisco, Oct. 17.—News of the first engagement between the Chinese revolutionists and the imperial forces was received here, a cablegram to the Chinese Free Press giving an account of the disabling of three government gunboats by the revolutionists near Hankow.

The boats destroyed were the Chor Kung, Chor Keung and the Chor Choy. Two other boats of the flotilla, one of which carried Suvi Chang, viceroys of the Hneph province, escaped.

It is reported at the local headquarters of the revolutionary government that the 1,800 men under General Ching Piao revolted and joined the revolutionists. From Hangzhou it was reported that troops numbering 10,000 came over to join Li Yuen Hung, commander of the revolutionary army.

## INTERVENTION HOPES FADING

Outlook for Early End of Turco-Italian War Less Promising.

Berlin, Oct. 17.—The outlook for a successful intervention to bring an end to the Turco-Italian war is becoming less favorable, according to a semi-official statement.

Italy has yielded to public opinion at home and is no longer willing to concede a Turkish suzerainty for Tripoli, while on the other hand Turkey is not willing to surrender Tripoli unconditionally because of the internal dangers that would be involved by such yielding on the part of the government.

It is impossible for other powers to negotiate definitely with Constantinople in the absence of a settled government there.

The situation causes anxiety here.

President Worst Advocates Fund for  
Work of the Congress.

Colorado Springs, Colo., Oct. 17.—Lethbridge, Alta., Can., is making a determined effort to get the 1912 International Dry Farming congress. Two hundred delegates from that vicinity arrived and at once launched a vigorous campaign.

A message of greeting from President Taft was read at the afternoon session.

Dr. J. H. Worst, president of North Dakota agricultural college, Fargo, and also president of the Dry Farming congress, spoke on the importance of the dry farming movement and the means for supporting it.

Pointing out that all the tillable regions of the earth must ultimately be tilled, he said, "How" is the question; and that question it is the purpose of this and succeeding dry farming congresses to answer.

"This congress, therefore, should be endowed with a foundation at once permanent and that will insure an adequate income to its needs."

## CHINESE TEAS MAY GO UP

Treasury Department Excludes Blends  
Artificially Colored.

Washington, Oct. 17.—Tea drinkers, especially those who prefer Chinese blends, soon may find the price advancing in the wake of coffee and sugar as a result of the treasury department's strict ruling against importations of teas artificially colored.

The order already has resulted in turning from American ports several hundred thousand pounds of China tea treated with Prussian blue, talc and other drugs or chemicals.

Custom officials foresee in consequence a sharp advance in the prices of Chinese teas.

## RAUE IS GUILTY OF MURDER

Jury Out Only Two Hours in Case  
of Marinette Man.

Marinette, Wis., Oct. 17.—Charles F. Raue was found guilty of murder in the first degree. Raue was arrested June 18 for the murder of Mrs. Anna Marlow, aged twenty-six, who had separated from her husband.

Blood spots were found on Raue's clothes. He admitted having been with the woman on the night of the murder. The evidence was entirely circumstantial. The jury was out but two hours. The murder was the most brutal ever committed in this county. Raue is a widower, aged thirty-eight.

PLOT TO WRECK  
TAFT'S SPECIALWatchman Frustrates Attempt to  
Dynamite Bridge.

FINDS EXPLOSIVE PACKAGE

Twenty-one sticks of dynamite placed in boxlike section of bridge pier on Southern Pacific Railroad Twenty-five miles north of Santa Barbara, Cal.—Watchman fires several shots at man running away.

Santa Barbara, Cal., Oct. 17.—What is pronounced by Sheriff Nat Stewart of Santa Barbara county and W. F. Wines of San Francisco, special agent for the Southern Pacific railroad, to have been a deliberate attempt to dynamite an 800-foot bridge, twenty-five miles north of here, over which President Taft's special train passed, was frustrated by the vigilance of a Mexican bridge watchman.

Sheriff Stewart and Mr. Wines returned from the scene and reported the evidence of the plot was complete. Secret service men have been placed on the case and a close watch is being kept on all mountain passes. About midnight when the Mexican watchman was crossing the bridge he noticed a man in the gully beneath. He called to the man, who immediately started to run. The Mexican fired several shots, but all went wild.

Investigating, he found a package of dynamite, and at once notified the sheriff, who notified the railroad officers, and Wines was ordered to get off the president's train at Santa Barbara and make an investigation.

Inside the boxlike section of the pier twenty-one sticks of dynamite were found. The explosive was entirely hidden except that a fuse ten feet long hung out.

In a similar position at the next pier eighteen sticks of dynamite were found, with fuse attached. Both of these piers were about the middle of the bridge.

Further inspection disclosed two sticks of dynamite lying near the bridge, evidently at the spot where the man had been arranging the dynamite and attaching the fuse.

The officers said the dynamite would test 40 per cent, enough, they declare, to blow the bridge to atoms.

From a position directly above the dynamite on top of the bridge the man could have commanded a distant view of any train approaching and, if experienced with dynamite, he could have so timed his fuses as to destroy any train he wished.

Following an appeal for support for scientific revision of the various schedules, based upon reports of the tariff board, Mr. Taft called out a storm of cheers by announcing to the lemon growers that the tariff on their product would not be changed until the tariff board had time to investigate and report on the difference in the cost of production at home and abroad.

## Arcadia.

Arcadia is the central state of the ancient Peloponnese, Greece. It derived its name from Arcas, the son of Callisto. The inhabitants considered themselves the most ancient in Greece. They lived in a state of peace and innocence, and hence the word "Arcadia" has come to denote rustic simplicity and content.

NELSON FINALLY  
IS DISQUALIFIEDAdmits Bias and Is Excused  
From McNamara Jury.

WITHDRAWS HIS OPPOSITION

Prosecutor Fredericks Quick to Admit Challenge of Defense When Witness Answers Certain Question—Two Other Talesmen Examined by Defense and Appear to Have Given Satisfactory Answers.

Los Angeles, Cal., Oct. 17.—When seemingly caught in its first snag the McNamara murder trial in an instant twisted itself out of a situation which had worried opposing counsel since last Wednesday and for the remainder of the day at least went ahead speedily.

"Could you set aside your opinions sufficiently to enable you to give a fair and impartial verdict?" was the question put to Venetian Z. T. Nelson by Attorney Clarence S. Darrow, chief of counsel for James B. McNamara, who is on trial for the murder of Charles J. Haggerty, a machinist, killed in the Los Angeles Times explosion a year ago. Nelson had been asked many hundreds of questions to obtain his views and he had answered all of them without clearing up the situation. "I don't just know," he replied, and in an instant District Attorney John D. Fredericks, for the state, withdrew opposition to a challenge previously made by the defense on the charge of bias.

Talesman Disqualified Himself. "There was not anything else to do after that question and answer," said Fredericks later. "The talesman disqualified himself. There was no use putting it up to the court."

In the course of Nelson's examination he had said he believed the Times building was blown up by dynamite and that he had an opinion concerning the guilt or innocence of McNamara. As the defense contends both that the Times was blown up by gas and that McNamara has an alibi these opinions were extremely distasteful to it. The state resisted the challenge on the ground that under the California criminal code Nelson could hold such views without being disqualified.

When court closed Nelson was on his way home and two other talesmen had been examined by the defense. One of them, John W. Roberts, a real estate dealer, was found satisfactory and Robert F. Bain, a carpenter, also was examined without raising any contest. Nevertheless, it was the general opinion that the Nelson incident would be duplicated before a jury was obtained.

Are Both Past Middle Age. Roberts and Bain are both past middle age and white haired.

The Merchants and Manufacturers' association, a local organization which is among those offering rewards for the detection of the person or persons supposed to have blown up the Times, was brought into the situation when Attorney Darrow began asking talesmen if they belonged to it or other organizations. Roberts said he belonged to it several years.

Four men were ejected from the courtroom. They left so quietly that spectators generally were convinced they were departing of their own account.

The men became agitated while listening to the address of Attorney Scott, who declared that it would be better to lynch James McNamara than to try him before an unfair jury.

Noticing their excitement bailiffs suggested to them that they leave and they did.

## Aged Man Suffocated in Fire.

Tabor, S. D., Oct. 17.—Joseph Hajek, aged seventy-nine years, and for the last nineteen years a resident of Tabor, living alone, was suffocated in a fire that burned his home. A careful search resulted in the finding of a considerable sum in currency and silver. The fire is supposed to have been started by burning paper falling from the floor from the open stove door.

San Juan, P. R., Oct. 17.—The First National bank of Porto Rico has been placed in voluntary liquidation.

## WHOLE FAMILY IS SLAIN

Chauffeur, Wife and Three Children  
Murdered in Their Beds.

Ellsworth, Kan., Oct. 17.—Slain as they slept Sunday night the bodies of Will Showman, a chauffeur, his wife and three small children were discovered in the Showman home by a neighbor who chanced to call and who entered the house when no one responded to his knock.

The bodies of the five victims were found in one room, the father, mother and baby in one bed and the other two children in the second bed.

Showman's wages as chauffeur and mechanic at the garage were small and the family was in moderate circumstances.

## CRITICISES HILL'S VIEWS

New York Merchant Replies to Rail-  
way Magnate.

New York, Oct. 17.—"Mr. Hill of the Great Northern railway admits that we have a panic breeding banking system, but he asserts that the congress of the United States has not the intelligence to work out the reform that the business men of the country are demanding. This, it seems to me, is an astounding statement. I believe the great majority of the people of this country are ready to leave this vitally important, nonpartisan work of reform with congress, confident that it will be performed for the good of all the people."

Isidor Straus, the New York merchant, treasurer of the New York state branch of the National City league, thus answered James J. Hill's Springfield, Ill., speech.

PROGRESSIVES FAVOR  
WISCONSIN SENATORChicago Conference Endorses La  
Follette for President.

Chicago, Oct. 17.—Senator La Follette was endorsed as the progressive candidate for president without dissent. The conference of progressives was a La Follette demonstration from start to finish. Now that the first gun has been fired since the movement has crystallized around a candidate politicians are weighing its significance.

G. L. Record, chairman, hails from Woodrow Wilson's state and is a leading progressive senator. To M. B. Clapp, a Western progressive, was assigned the task of presenting La Follette's name to the conference. Cautious progressives, typified in James R. Garfield, had no show. Roosevelt's name was hardly mentioned and if Garfield came with a message from Oyster Bay La Follette enthusiasts smothered it.

So unanimous was the feeling for La Follette that it was decided at a conference in the afternoon to finish the business in one day. Cook county progressives met at dinner and endorsed La Follette as a preliminary move to similar action by the conference.

Des Moines, Oct. 17.—Frank Gotch, world's champion wrestler, threw Emilio Pietro, the Canadian heavy-weight wrestler, twice in a little more than twenty minutes here. The first fall came in 15 minutes 20 seconds; the second in 15 minutes 19 seconds. Youself Mahmoud failed to throw Jesse Reimer of Des Moines in a thirty-minute handicap match.

## FOUR LYNCHERS GET LIFE

Court Orders Girl Accused as Access-  
sory Released.

Valentine, Neb., Oct. 17.—Four men, accused of lynching Charles P. Sellers June 18 on a ranch near here, were sentenced to life imprisonment by Judge Westover in district court. Eunice Murphy, the girl accused of being an accessory before the fact, was ordered released.

The four sentenced were Harry Heath, Kenneth Murphy, Alma Weed and George Weed. The four were arraigned on charges of murder in the first degree, but the court allowed them to ignore this charge upon their petition to plead to the second degree crime.

OUR GREATEST  
NAVAL REVIEWWill Be Held In New York  
Waters on Nov. 1.

PRESIDENT TAFT INVITED.

Asked to Change Plans Which Call For Finishing His Trip at Washington. All Available Ships on Atlantic Coast to Participate.

President Taft has been asked to review the most imposing naval demonstration ever held in American waters. It will take place at New York early in November. Secretary of the Navy Meyer has written a letter to Mr. Taft asking him to terminate his present trip at New York city on Nov. 1 instead of at Washington, as is contemplated. Whether Mr. Taft will be able to change his itinerary and attend the review or not, Secretary Meyer will be on hand to inspect the assembled vessels.

The mobilization of all the available vessels on the Atlantic coast at New York has been decided on in place of a fall cruise. Recently there have been many protests from officers of the Atlantic fleet that they have been worked too hard by protracted foreign cruises. This sentiment led to the abandonment of tentative plans for a cruise to the West Indies and the Panama canal, which had been scheduled for Oct. 15.

Opposition to a Cruise. Mr. Meyer thinks that the efficiency of the navy would be promoted quite as much by an unexpected mobilization of a large fleet as by cruises. For this reason and in view of the opposition among officers and men of the navy to a cruise he decided upon the mobilization.

While the list of ships to participate in the demonstration has not been selected, it will be the aim of Rear Admiral Richard Wainwright to have as many vessels as possible present. There will be about twenty-five battleships, sixteen belonging to the Atlantic fleet and nine or ten battleships of the reserve fleet. Armored cruisers, gunboats, destroyers and submarines will also take part. Both in size and in naval strength the aggregation of war vessels will be far superior to that at Oyster Bay on Labor day, 1906, when the last naval review was held. At that time a total of about forty-five fighting vessels were arrayed in command of Rear Admiral Robley D. Evans, for review by President Roosevelt. There were then only eighteen battleships in the fleet formation.

Next month the new Dreadnoughts Florida and Utah, recently placed in commission, which have a displacement of 28,000 tons, will lead in size. The fleet will be in command of Rear Admiral Hugo Osterhaus. The spectacle will last only about three days. There will be short divisional cruises, but the fleet will remain in home waters until early in January, when it will proceed to Guantanamo for a period of extensive battle exercises with the torpedo fleet, which will last until the middle or end of February, 1912.

## On Pacific Coast Too.

A similar mobilization will take place on the Pacific coast. The fleet will be assembled near Los Angeles. This gathering of war vessels, however, will be much smaller than at the Atlantic coast because comparatively few of the naval vessels are stationed on the Pacific.

The officers on duty in the navy department have already begun arrangements for the forthcoming mobilization. While it was intended to keep the matter secret as long as possible so that it would be in the nature of a surprise test, Secretary Meyer's plans leaked out. All the orders necessary for the carrying out of the plans of the department have not been sent out, although the movement is well on its way. The officers of the department originally intended to spring the mobilization without much notice in order that the administrative machinery of the department and the navy yards would be tested to ascertain their state of preparedness for emergency. This became impossible when Mr. Meyer's plan was made public. As it is the navy will have only about four weeks to prepare for the test.

No decision has been reached as to the number of war vessels now in reserve which will be placed in commission to take part in the demonstration. This will probably depend upon the number of seamen available from the training stations.

## Wireless Talk With Japan.

The wireless operator in the Hillcrest station, San Francisco, was recently in direct communication with Japan. Although signals were faint for a time, they could be read clearly at a distance of a little more than 6,000 miles. The operator learned that the call came from the Japanese wireless station in the island Hokushu, in extreme northern Japan. The operators exchanged messages for some time, and then connection was lost.

## LOUIS D. BRANDEIS.

Mentioned as Probable Suc-  
cessor to Justice Harlan.

## MAY APPOINT PROGRESSIVE

Louis Brandeis May Succeed Late  
Justice Harlan.

Washington, Oct. 17.—Political circles agreed that President Taft will select a progressive successor to the late Associate Justice Harlan of the supreme court.

One report is that Louis Brandeis of Boston might be chosen. Another report, and one more generally credited, was that Solicitor General Frederick W. Lehmann would be appointed. He is a lifelong friend of Senator Cummins of Iowa.

Numerous other names were suggested, comprising the same list that is usually put forward for the supreme bench, but interest centered chiefly in the discussion of Brandeis and Lehmann.

BLACK RIVER FALLS  
IS AGAIN IN PERILHeavy Rains Cause River to Rise  
About Three Feet.

Black River Falls, Wis., Oct. 17.—The entire city was thrown into excitement by the heavy downpour of rain which continued all forenoon and brought the river up about three feet. The water again began cutting away Main street.

Efforts of all the available men here are centered on the building of a protecting wall for the old postoffice building, now occupied by the Jackson County bank. A plank wall is being built and the back is being barricaded by stone.

Everything was thought to be safe, but Main street has been cut back ten feet and it is feared the entire north side of the street will collapse.

Merchants who had returned to some of the buildings on Main street are again moving their goods to higher ground.

Martin Torkelson, one of the civil engineers of the state, is in the city and says the newly cut channel of the river can be turned to its old bed, but he says it will cost a large sum.

Matters have assumed such shape that Major Williams has sent home forty of the state troops and thinks he has a sufficient number left to handle the situation.

## DESTROY THREE GUNBOATS

Two Other Vessels Escape From  
Rebels Near Hankow.

San Francisco, Oct. 17.—News of the first engagement between the Chinese revolutionists and the imperial forces was received here, a cablegram to the Chinese Free Press giving an account of the disabling of three government gunboats by the revolutionists near Hankow.

The boats destroyed were the Chor Kung, Chor Keung and the Chor Choy. Two other boats of the flotilla, one of which carried Sui Ching, viceroy of the Hneph province, escaped.

It is reported at the local headquarters of the revolutionary government that the 1,800 men under General Ching Piao revolted and joined the revolutionists. From Hangzhou it was reported that troops numbering 10,000 came over to join Li Yuen Hung, commander of the revolutionary army.

## INTERVENTION HOPES FADING

Outlook for Early End of Turco-Italian War Less Promising.

Berlin, Oct. 17.—The outlook for a successful intervention to bring an end to the Turco-Italian war is becoming less favorable, according to a semi-official statement.

Italy has yielded to public opinion at home and is no longer willing to concede a Turkish suzerainty for Tripoli, while on the other hand Turkey is not willing to surrender Tripoli unconditionally because of the internal dangers that would be involved by such yielding on the part of the government.

It is impossible for other powers to negotiate definitely with Constantinople in the absence of a settled government there.

The situation causes anxiety here.

## WOULD ENDOW DRY FARMING

President Worst Advocate Fund for  
Work of the Congress.

Colorado Springs, Colo., Oct. 17.—Lethbridge, Alta., Can., is making a determined effort to get the 1912 International Dry Farming congress. Two hundred delegates from that vicinity arrived and at once launched a vigorous campaign.

A message of greeting from President Taft was read at the afternoon session.

Dr. J. H. Worst, president of North Dakota agricultural college, Fargo, and also president of the Dry Farming congress, spoke on the importance of the dry farming movement and the means for supporting it.

Pointing out that all the tillable regions of the earth must ultimately be tilled, he said, "How" is the question; and that question it is the purpose of this and succeeding dry farming congresses to answer.

"This congress, therefore, should be endowed with a foundation at once permanent and that will insure an adequate income to its needs."

## CHINESE TEAS MAY GO UP

Treasury Department Excludes Blends  
Artificially Colored.

Washington, Oct. 17.—Tea drinkers, especially those who prefer Chinese blends, soon may find the price advancing in the wake of coffee and sugar as a result of the treasury department's strict ruling against importations of teas artificially colored.

The order already has resulted in turning from American ports several hundred thousand pounds of China tea treated with Prussian blue, talc and other drugs or chemicals.

Custom officials foresee in consequence a sharp advance in the prices of Chinese teas.

## RAUE IS GUILTY OF MURDER

Jury Out Only Two Hours in Case  
of Marinette Man.

Marinette, Wis., Oct. 17.—Charles F. Raue was found guilty of murder in the first degree. Raue was arrested June 18 for the murder of Mrs. Anna Marlow, aged twenty-six, who had separated from her husband.

Blood spots were found on Raue's clothes. He admitted having been with the woman on the night of the murder. The evidence was entirely circumstantial. The jury was out but two hours. The murder was the most brutal ever committed in this county. Raue is a widower, aged thirty-eight.

## Murdered in Hotel.

Council Bluffs, Ia., Oct. 17.—W. R. Schwartz of Shenandoah, Ia., was shot through the temple in a room at a local hotel and died half an hour later at Mercy hospital. A woman who gives the name of Mrs. Kirk, with whom Schwartz was registered at the hotel, is being held pending an investigation.

## St. Paul Man Killed by Train.

Eau Claire, Wis., Oct. 17.—Charles Cashman, freight conductor of St. Paul, fell beneath the wheels at Menomonie Junction. Both legs were cut off. He died soon after he had been taken to a hospital here.

Several Witnesses Testify in Ste-  
phenson Election Case.

## EDITOR TELLS OF PROPOSALS

Lancaster (Wis.) Publisher Declares He Received Offers to Publish Articles Favorable to the Senator but Declined—Not Certain Whether the Propositions Were in the Nature of Bribes.

Milwaukee, Oct. 17.—The charges that bribery and corruption contributed to the election of United States Senator Isaac Stephenson were denied by three important witnesses before the senatorial investigating committee. Following a statement by Senator W. B. Heyburn, chairman of the committee, that "somebody must sustain the charges or they will fail," the witnesses, each of whom had been specifically named in the charges submitted to the United States senate, declared they had never aided Senator Stephenson in the manner charged.

The witnesses—C. M. Hambricht of Milwaukee, U. C. Keller of Baraboo, Wis., and E. M. Hyzer, former general counsel of the Chicago and Northwestern railroad—had been named by State Senator J. J. Blaine in three of his sixteen charges as corruptly and unlawfully working for Senator Stephenson. It was Blaine's charges which resulted in the senatorial investigation.

Keller was charged with receiving \$300 as a consideration, "unlawfully and corruptly," to induce him to work as a Stephenson supporter in the primary campaign of 1908. On the witness stand Keller gave a detailed account of his work as a political worker and said \$200 had been given him out of the \$107,793 Stephenson campaign fund to defray his expenses in traveling through rural districts.

## Employed as Political Worker.

In answer to the charge that he had received large sums of money corruptly Hambricht explained that he was paid \$300 for services and \$245 for expenses while employed as a regular political worker.

Mr. Hyzer, who with Max Sells was charged with unlawfully giving his services as an employee of the Chicago and Northwestern railroad to defeat candidates for the legislature opposed to Senator Stephenson, denied the charge. He said he had been counsel for the senator and merely was a friend interested in his election. He declared he never had received any more for political work. Sells gave similar testimony.

Questioned as to a charge that he had been offered money to purchase his editorial support in violation of the law Edward Pollock, editor of a newspaper at Lancaster, Wis., declared he had received offers to publish articles favorable to Senator Stephenson, but, he said, he had refused the offers.

"Now," said Chairman Heyburn, "it is specifically charged that this money was offered you for an unlawful purpose. Somebody must sustain these charges, or they will fail. Was that money offered you as a bribe?"

## WINNIPEG HAS CITY LIGHT

Municipal Plant Started and Price Is  
Cut Two-thirds.

Winnipeg, Oct. 17.—The streets of the city were thronged with a jubilant crowd, celebrating the turning on of the current from the city's municipal power plant.

The city council decided to reduce the price of current to what was promised the rate payers in 1906, when the power project was placed before them. The plant entailed an initial expenditure of \$500,000.

The reduced price is one-third of that charged by the private electric company, which has provided power for Winnipeg for twenty years. This move has taken the private company by surprise. Eventually it probably will present new terms for the sale of its property to the city.

## Philadelphia Defects New York.

Philadelphia, Oct. 17.—When John Franklin Baker, third baseman, poled a home run over the right field wall of Shibe park, scoring "Reddie" Collins ahead of him, he put the Philadelphia team on an even footing with the New Yorkers and the two teams now will go to New York for the third game in the series for the world's baseball honors. The score was Philadelphia 3, New York 1.

## Peace Efforts Fruitless.

London, Oct. 17.—The Chronicle's Vienna correspondent declares that all diplomatic efforts made at Rome to bring about peace utterly have failed. Italy has insisted upon the unconditional annexation of Tripoli and Cyrenaica and practically refuses to give Turkey financial compensation. Another attempt at peace intervention, says the correspondent, may be made later.

M. D. Stoner returned from Bemidji this noon. He has withdrawn the proposition he made the Aitkin council to lease their lighting plant for a term of 15 years. He offered them continuous current with lighting at 10 cents per kilowatt. The pumping was to be done for 60 per cent of the gross receipts and Mr. Stoner was to furnish all pumping machinery. In addition Mr. Stoner had proposed to install a fire alarm system with a bell in every fireman's home. Pressing a button at the central station would ring up every fireman. In spite of this comprehensive proposition the committee appointed by the council reported adversely and so Mr. Stoner withdrew.

**GYMNASIUM WORK**

**Class Will Begin Work Tonight at the Y. M. C. A. For the Fall and Winter Season**

Regular gymnasium class work will begin tonight at the Y. M. C. A. for the fall and winter season. During the summer the members have been engaged to a large extent in outdoor exercise but as the cold weather is setting in the gymnasium work will open up again.

Several of the members have been in and have started to work already, particularly those interested in basketball and wrestling. This class which is to meet for the first time this season tonight will meet regularly on Tuesday and Thursday evening of each week. The class work will consist of work on the horizontal bar, parallel bars, rings, horse, mats, dumb-bells, Indian clubs, etc.

This class will also put on the gymnasium part of the program of the second annual mid-winter indoor carnival to be held in January. A large class is expected to begin work tonight. Any member can join this class without extra fee.

**At the Opera House**

On Monday evening Milton Mahlum, with ticket No. 134, won the lower floor seat to a performance of "The Three Twins." Ticket 108 was called out by Manager Tom Brown at last evening's show at the opera house as winning a balcony seat to "The Cow and the Moon," but the holder was not present.

On Saturday evening ticket No. 49 for a balcony seat in the "Red Mill" and ticket No. 68 for a lower floor seat to the "Three Twins" were not claimed.

This evening there will not be any moving picture show as "Uncle Tom's Cabin" holds forth.

**"Uncle Tom's Cabin"**

Al. W. Martin's world's greatest production of "Uncle Tom's Cabin" will appear at the opera house tonight. Mr. Martin has successfully solved the problem of combining the old and the new "Uncle Tom's Cabin" into a big spectacular play that leaves out nothing worth retaining of either the straight method or the circus method. All the worthy features of the old landmarks are retained, while the thread of the story has been cleverly reconstructed, making it more coherent; this with the introduction of a host of high-class specialties thoroughly in keeping with the piece, goes far toward forming an evening's entertainment. It will be a real loss to miss witnessing.

**Is the World Growing Better?**

Many things go to prove that it is. The way thousands are trying to help others is proof. Among them is Mrs. W. W. Gould, of Pittsfield, N. H. Finding good health by taking Electric Bitters, she now advises other sufferers, everywhere, to take them. "For years I suffered with stomach and kidney trouble," she writes. "Every medicine I used failed till I took Electric Bitters. But this great remedy helped me wonderfully." They'll help any woman. They're the best tonic and finest liver and kidney remedy that's made. Try them. You'll see. 50c at all druggists. tts

**CASCARETS CLEANSE LIVER AND BOWELS**

No Biliousness, Headache, Sick, Sour Stomach, Indigestion, Coated Tongue or Constipation

Furred tongue, bad taste, indigestion, sallow skin and miserable headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give you a thorough cleansing inside and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

**Schober Could Eat a Whole Turkey at One Meal.**

The largest coffin ever built in New Jersey was constructed to hold the body of George Schober of Jersey City, a wealthy retired butcher. Schober weighed 650 pounds, and twelve strong men acted as pallbearers.

Schober was six feet tall. He was a jovial man and an enormous eater, and at Christmas and Thanksgiving he was in the habit of having prepared for his consumption an entire turkey with its necessary garnishments. At each meal Schober ordinarily ate as much as his wife and four sons together. His usual breakfast consisted of a dozen eggs, a pound or two of ham, the greater part of a loaf of bread and two cups of milk. It is

**THE DOCTOR'S QUESTION.**

Much Sickness Due to Bowel Disorders.

A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that 98% of illness is attended with inactive bowels and torpid liver, and that this condition must be removed gently and thoroughly before health can be restored.

Reckall Orderlies are a positive, pleasant, and safe remedy for constipation and bowel disorders in general. We are so certain of their great curative value that we promise to return the purchaser's money in every case when they fail to produce entire satisfaction.

Reckall Orderlies are eaten like candy. They act quickly, and aid in producing a soothing, strengthening, healing influence on the entire intestinal tract. They do not purge, gripe, cause nausea, diarrhoea, or other annoying effect. They are especially good for children, weak persons, or old folks.

Three sizes, 10c, 25c, and 50c. Sold only at our store—The Reckall Store Johnson's Pharmacy, 222 7th St. S.

Valentine Bieganowski's Faith in Mattress Shattered When Hoard Disappears

TELL OF THE \$990 NOW LOST

Hoarding for three years, fearful of intrusting his savings to banks, and having implicit confidence in the safety of mattresses, Valentine Bieganowski, 730 Garden Street, has come to grief. Bieganowski had saved \$990, \$600 in gold and \$390 in bills, and had it hidden in his house. When he went to count his shining yellow pieces and the bright new bills Sunday morning, he found them all missing, he says. The police are investigating.—Milwaukee, Wis. Sentinel.

## COUNCIL HAS MUCH ORATORY ON TAP

Alld. Fogelstrom Makes 16 Motions, 6 Amendments, 2 Interpretations and Interpellations

### ENG. GLASS MAKES A REPORT

"City Not Liable For Emil Lind and W. E. Lively Claims," Said Attorney Ryan

The session of the city council last evening was enlivened by much oratory and the chief one in the way of verbal gymnastics was the alderman from the fourth ward, P. Q. Fogelstrom, who made 16 motions, 6 amendments, 2 interpretations and numerous interpellations and rulings.

The chair was kept busy ruling Mr. Fogelstrom in or out, as the case might be, but through it all Mr. Fogelstrom showed himself a skillful tactician and blessed with considerable knowledge parliamentary law.

The bill of the water and light board for water furnished on the Laurel street sewer construction work was ruled on by City Attorney M. P. Ryan and in a written opinion he stated that the Pastoret-Lawrence Co., the sewer contractors, should be held liable for the pay of the water used. It was said that the water had been ordered by Alderman Fogelstrom.

"Under no conditions did I ever order any water," said Mr. Fogelstrom.

"I believe that Mr. Fogelstrom has never ordered water at any time," said Attorney Ryan.

There were present at the beginning of the meeting President C. E. Rowley and Alderman Elder, Purv, Dieckhaus, Henning, Olson, Anderson and Lagerquist. Alderman Fogelstrom was late but he made up for lost time.

The incident which produced the greatest ruction was the report which the city engineer, Frank A. Glass made. It was written and stated:

"The work done by Ritari Bros. on their contract on Third avenue, northeast, is so much inferior to what it should have been had they followed the terms of the specifications under which they were working that I recommend that you reject the work and make no further payments on the same.

"I also recommend that you accept no bids from this firm in the future for any city work."

Attorney G. S. Swanson, appearing for Ritari Bros. objected to such a report when the property owners had expressed themselves as satisfied with the work of the contractors. The Ritari's had torn up work which

Attorney Swanson maintained the work had been accepted when the 80 per cent payment on the contract was authorized at the last meeting of the council.

There was considerable discussion among the aldermen and Mr. Glass stated that his survey stakes had been frequently moved or trampled on.

On motion of Alderman Elder seconded by Alderman Lagerquist it was ordered that the city engineer should make his report more specific and in writing and that the matter be referred to the street committee in conjunction with the aldermen from that ward to report on at the next regular meeting.

"I am not in favor of any money being paid out unless on the report of a committee," said Alderman Elder.

City Attorney Ryan submitted an opinion on the claim of Emil Lind, who wanted damages from the city. The opinion was:

"Referring to the claim of Emil Lind for injuries received through falling from the so-called 'Laurel street bridge,' I beg to advise that in my opinion, there is no liability on the part of the city for this injury, and the claim should be declined."

## RADIUM AND LIQUID AIR

Wm. B. Patty to Lecture on These Under the Auspices of Knights of Columbus

ON FRIDAY EVENING, NOV. 10

Lecture Will Also Include the Subject of Wireless Telegraphy and is Very Interesting

William B. Patty, of Chicago, will lecture on radium, liquid air and wireless telegraphy under the auspices of the Knights of Columbus of this city at their hall in the Iron Exchange building on Friday evening November 10.

In Prof. Patty's entertainment the Knights of Columbus believe they have secured an attraction that will prove most delightful to their patrons whether or not they are especially interested in scientific subjects.

Mr. Patty performs scores of intensely interesting experiments with his wonderful subjects, and explains each in most entertaining style, in non-technical language, easily understood by young and old.

In his wireless telegraphy experiments he will send and receive wireless messages in full view of the audience, ring bells at a distance, start motors, manipulate signals and electric lights, and give a comprehensive demonstration of the present uses of this much talked of discovery, as well as explaining its future possibilities in warfare, train dispatching, etc.

On the same evening he will also show the wonders of radium and liquid air, bringing a supply of these materials and apparatus for actual experiments.

H. B. Scott, A. M. superintendent of schools at Eufaula, Oklahoma said: "Prof. Patty gave us three fine entertainments for the price of one last night, and his great audience were a unit in declaring it the finest lecture ever presented to an Eufaula assembly. Scholarly, humorous, yet profound, the address impressed our people as no other had ever done. For two hours he held the large crowd spellbound with his forceful and masterly presentation of the three-fold subjects. We shall try to get him on every lecture course we organize."

## The Tailor Dressed Woman Is Welcome Everywhere

There's no use talking—clothes DO count. You know it yourself from your own experience.

Let a fashionably dressed woman enter a room and all eyes are instinctively turned toward her. Let her go marketing and she receives more individual attention and consideration than her less attractive sister is shown.

It's unjust we know—but it's true. There's a feeling akin to reverence for the smartly tailored woman. She carries with her an air of refinement and good taste that instinctively commands respect from all classes.

When you see such a woman, don't envy her. Have YOUR clothes made-to-order and be tailor-dressed yourself.

CENSUS TAKING ANCIENT

Taking of Census Comes Down to us From the Palmy Days of Rome

It was Servius Tullius, the fifth King of Rome, who first introduced the taking of the census and appointing censors, about the year 400 B. C. It was put into the hands of two Roman officers of the state whose duties were vast and undefined and whose decisions were received with solemn reverence.

The duties of the two censors in those days were three-fold: (1) The taking of the census, or register of the citizens and their property. (2) The regimen morum, (regulation of morals) (3) The administration of the finances of the state.

To us it means the periodical counting of the people, largely, and the proportions in which they are distributed according to age, sex, profession, rank and the like, and other statistical information that may prove of value to the nation. The first census of modern times was taken in England in 1801. It is now taken every ten years in England, Belgium, Austria, Germany and the U. S., but once every five years in France. China not long ago took the first census ever taken in its history.

Concerning Brainerd's census which is to be taken Tuesday afternoon, the information being required is such that it requires but a couple of answers to complete it and it will not take very long to get it done.

The Ministerial association had it up for discussion yesterday afternoon at their meeting, and this afternoon they met in conference on the same

subject, and every clergyman of all Brainerd's churches have given their unqualified assent to the movement, as they believe that many new families are constantly coming to Brainerd.

## COUNCIL HAS MUCH ORATORY ON TAP

Ald. Fogelstrom Makes 16 Motions, 6 Amendments, 2 Interpretations and Interpellations

### ENG. GLASS MAKES A REPORT

"City Not Liable For Emil Lind and W. E. Lively Claims," Said Attorney Ryan

The session of the city council last evening was enlivened by much oratory and the chief one in the way of verbal gymnastics was the alderman from the fourth ward, P. Q. Fogelstrom, who made 16 motions, 6 amendments, two interpretations and numerous interpellations and rulings.

The chair was kept busy ruling Mr. Fogelstrom in or out, as the case might be, but through it all Mr. Fogelstrom showed himself a skillful tactician and blessed with considerable knowledge parliamentary law.

The bill of the water and light board for water furnished on the Laurel street sewer construction work was ruled on by City Attorney M. E. Ryan and in a written opinion he stated that the Pastoret-Lawrence Co. the sewer contractors, should be held liable for the pay of the water used. It was said that the water had been ordered by Alderman Fogelstrom.

"Under no conditions did I ever order any water," said Mr. Fogelstrom.

"I believe that Mr. Fogelstrom has never ordered water at any time," said Attorney Ryan.

There were present at the beginning of the meeting President C. D. Rowley and Alderman Elder, Purv, Dieckhaus, Henning, Olson, Anderson and Lagerquist. Alderman Fogelstrom was late but he made up for lost time.

Frank Wright Extinguishes Blaze Sunday Afternoon in Old School House Near Merrifield

Frank Wright, a local traveling man, while out driving Sunday afternoon about 12 miles north of Brainerd and four miles east of Merrifield, came upon an old log school house north of Leitner's and was surprised to find heavy smoke curling out from under the eaves. He stopped his team and burst open the door, finding the floor of the structure on fire.

Using a bucket which he carried to water his horses, he found some water and extinguished the fire. The interior was supplied with seats, an organ and other furniture and it was evident that Sunday school was held there. The origin of the fire was a mystery to him as he learned afterwards that the Sunday school met from 10:30 A. M. to 11:30 A. M. The day was not very cold and it did not seem evident that a fire in the stove would last from morning until four o'clock in the afternoon when Wright drove by.

## GERMANS FIGHT A CHINESE MOB

### Special to Dispatch:—

Berlin, Germany, October 17—Advices received at the foreign office from Hankow today report that a German force of blue jackets, reinforced by German local residents, landed at Hankow and are now engaged in fighting in the street with a Chinese mob.

The admiralty has no further details regarding the fighting but understands the Germans are co-operating in the international landing to put an end to the pillaging which has been going on since the rebels captured the city.

### CENSUS TAKING ANCIENT

Taking of Census Comes Down to us From the Palmy Days of Rome

It was Servius Tullius, the fifth King of Rome, who first introduced the taking of the census and appointing censors, about the year 400 B. C. It was put into the hands of two Roman officers of the state whose duties were vast and undefined and whose decisions were received with solemn reverence.

The duties of the two censors in those days were three-fold: (1) The taking of the census, or register of the citizens and their property. (2) The regimen morum, (regulation of morals) (3) The administration of the finances of the state. To us it means the periodical counting of the people, largely, and the proportions in which they are distributed according to age, sex, profession, rank and the like, and other statistical information that may prove of value to the nation. The first census of modern times was taken in England in 1801. It is now taken every ten years in England, Belgium, Austria, Germany and the U. S., but once every five years in France. China not long ago took the first census ever taken in its history.

Concerning Brainerd's census which is to be taken Tuesday afternoon, the information being required is such that it requires but a couple of answers to complete it and it will not take very long to get it done.

The Ministerial association had it up for discussion yesterday afternoon at their meeting, and this afternoon they met in conference on the same

subject, and every clergyman of all Brainerd's churches have given their unqualified assent to the movement, as they believe that many new families are constantly coming to Brainerd.

ownership of a right of way for this sewer, the cow in going into the same was in the position of a trespasser and the city owed the owner of the cow only the duty of not wantonly or wilfully injuring her. This, of course, was not done, therefore the claim should be declined."

Mayor H. P. Dunn presented the appeal for aid from the mayor and council of Black River Falls, Wis. The appeal was accepted and placed on file.

Alderman Lagerquist drew attention to the piano boxes, ice cream freezers, and other obstructions on sidewalks, the running of carts and push wagons on sidewalks, and the railing in of sidewalks.

"A property owner may be held liable for the obstruction of streets with lumber," said Atty. Ryan.

Alderman Lagerquist reported that the tower contract had been awarded C. E. Peabody for \$54.50. It satisfactory to the fire and water committee, the street commissioner was ordered to erect it.

The purchasing of oats and hay for Central horse house was left in the hands of the purchasing committee.

Alderman Lagerquist displayed samples of rubber boots and coats, and six pair of \$5 boots and a dozen \$3 rubber coats were ordered bought. The city clerk was ordered to hire a janitor.

On motion of Alderman Fogelstrom all coats and boots were ordered stencilled B. F. D. and the number of the hose company.

Practically all the liquor men of the city objected to the passage of the proposed ordinance No. 243, setting July 1 as the date when all liquor licenses were to be taken out each year. An aye and nay vote was taken on the matter of taking this ordinance from the table and giving it its second reading. Aldermen Henning, Olson, Anderson, Lagerquist, and Rowley voted nay, and the remaining four, Aldermen Elder, Purdy, Fogelstrom and Dieckhaus voted yea.

A resolution was adopted as requested by County Auditor Smart, cancelling the old assessment of 1903 on Laurel street.

Alderman Henning asked that the pot holes on Third avenue be fixed up and it was left in the hands of the street committee to act in conjunction with the aldermen of the third ward.

The council decided that City Engineer Glass should assist in drawing plans, maps, etc., for the route of the Moorhead-Duluth road through Brainerd, co-operating with Attorney C. A. Albright, who previously at the opening of the council session explained the Elwell law and the trunk road and asked for the assistance of Mr. Glass.

Alderman Anderson brought up the fact that City Engineer Glass was not bonded. Alderman Fogelstrom said every other city employee who required bonds was bonded and that no exception should be made here. Mr. Glass said the city should pay for the bonds and Mr. Ryan said he should pay for his own bonds. Mr. Glass promised to attend to it.

"I move you," said Mr. Fogelstrom, "that Mr. Glass shall have his bonds by next meeting or the office of city engineer shall be declared vacant." The motion carried. Aldermen Fogelstrom, Dieckhaus, Henning, Olson and Anderson voting aye, and four members, Aldermen Elder, Purdy, Lagerquist and Rowley voting nay.

Bids for the construction of 12 street crossings were opened. The

son of it falling into the general sewer in the ravine between the second and third wards, I beg to advise that in my opinion the city is not liable.

"In view of the fact of the city's bidders were Everett & Hitch, Ritari Bros., and J. F. Vaughn. The contract was awarded Everett & Hitch, who agreed to furnish a mixer and man and finisher for \$11 per day.

The resolution wherein the bid of Slipp-Gruenhagen for the construction of the lateral sewer through block 196 was accepted, was adopted.

A resolution declaring the former assessment on Third avenue irregular and defective and ordering a re-assessment for grading, curbing and paving was adopted.

The liquor license transfer of Tomlinson & Bunker to G. V. Thomas, of the Rex hotel, was granted.

A liquor license was granted Geo. LaVoy of the Gardner block near Fifth and Laurel streets.

The committee having in charge the establishment of an electric light rate for arc lamps was given further time.

## BEST WAY TO BREAK A COLD

The Most Severe Cold and Grippe Misery Will be Relieved in Just a Few Hours

You will distinctly feel your cold breaking and all the Grippe symptoms leaving after taking the very first dose.

It is a positive fact that Pape's Cold Compound, taken every two hours, until three consecutive doses are taken, will end the Grippe and break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

## "Sunday Folks."

When Dr. John Cairns went from Scotland to Ireland for rest and travel in 1864 he was at once delighted by discovering from the guides who showed him about that most of the landed gentry were "Sunday folks." "That's a fine castle," he would say, pointing to a big house set like a crown on some rocky hill.

"Yes, sir," said his guide. "Tis Sir John O'Connor's," or, "Tis Sir Rory O'More's." He always added, "He's a Sunday man."

At last Dr. Cairns grew curious. "What is a Sunday man?" he asked. "Well, sir, it do be a man that has so many writs out ag'in him for debt that he stays shut up tight in his house all the week and only comes out on Sunday, when the law protects him." Dr. Cairns' opinion of the landed gentry underwent a change.

## YOU CANNOT JOCKEY

A HORSE

with poor feed. He knows its quality as well if not better than you do. Give him some of our feed and grain and see how he will go into it. See him pick up in condition, too, after you have fed him with it a few days. Good feeding pays, and the use of our feed and grain will prove it.
